Lunati® Voodoo® 383 Stroker Crank & Rod Kit

Olive Branch, MS – The Voodoo® 383 Stroker Crank and Rod Kit from Lunati® combines high-quality components with an affordable price. Each kit includes a 3.750"-stroke Lunati crankshaft, 6.000"-long "stroker" H-beam connecting rods, and premium main and rod bearings.

Lunati crankshafts are made from a non-twist 4340 steel alloy forging strength and durability, and feature lightening holes in the rod journals for reduced crankshaft inertia and increased acceleration. They are nitride heat-treated, finished with micro-polished journals and designed for use with two-piece rear seals.

Lunati's Voodoo H-beam rods are also made from forged 4340 steel, CNC-machined and fitted with ARP2000 rod bolts. Each Stroker Crank and Rod Kit ships with a premium main and rod bearing kit. Balancing and pistons are available upon request.

Part Number: #37502VK01

Price: \$1,179.95
